

Objectives

The intent of this education program is to provide **new oncology nurses** with basic core knowledge in the nursing care of people with cancer, from which ongoing learning and skill may be pursued. This program is not designed to measure individual competency; but will deliver standardized basic clinical oncology education for nurses in the Puget Sound Region.

1. Explain the pathophysiology and diagnostic evaluation of cancer, and the rationale and common side effects of cancer treatments.
2. Describe the natural history, common treatment and nursing management of the following malignant processes: breast cancer, gynecological cancers, lung cancer, GI cancers, GU cancers, Head and Neck cancers, lymphoma, and leukemia.
3. Apply appropriate nursing interventions for patients experiencing: immunocompromise, oncologic emergencies, neurologic alterations, nutritional alternations.

Registration opens January 8, 2018

You may update, change, or cancel your registration though **February 19, 2018** by emailing PSONECreg@gmail.com.

Please note that changes or cancellations may incur a processing fee of up to 4.95% of the total charge. This processing fee will NOT be refunded.

No refunds, substitutions or changes after this date
