

Immune-Related Adverse Events Webinar Series: ICI-Mediated Myocarditis

Join the Conversation with Fred Hutch Cancer Center

We invite you to this provider focused virtual series: Immune Related Adverse Events - A Series of Panels Exploring the Side Effects of Immunotherapy, hosted by our course chairs Petros Grivas, MD, PhD, and Shailender Bhatia, MD. During the event, clinicians will present immunotherapy-related treatment and research updates, and discuss clinical challenges. We will begin with a didactic session, leaving roughly 45 minutes for case discussion and questions. Our featured panelist for this session is, Javid Moslehi, MD Chief of Cardio-Oncology and Immunology at UCSF.

Javid Moslehi,
MD

Shailender Bhatia,
MD

Petros Grivas,
MD, PhD
