

PSONS June 25, 2026 Virtual Education Event: PSONS Scholarship Recipient Recap of 2026 ONS Congress In San Antonio Part 2

June 25, 2026, Thursday
6:00 P.M- 8:00 P.M

PRESENTED BY: Coleen Calero, Tara Yanez, Christiana Smith, and Sofiya Kylyukh

OBJECTIVES:

1. Identify 3 key barriers that may influence a patient's adherence to an oral anticancer agent regimen and review potential reduction strategies.
2. Explain the importance of cognitive assessment tools in geriatric oncology patients and those with cognitive decline.
3. Identify implicit biases toward patients with altered mental status or cognitive decline in shared-decision making and their impact on care.
4. Identify systemic and cultural barriers in caring for the male oncology patient and ways to provide more holistic care.
5. Identify the difficulties in smoking cessation for patients, the impact of relapse, and strategies to assist this transition.
6. Identify how AI is being used in oncology care and its impact on oncology treatment.
7. Apply one new concept learned from ONS Congress attendees that can be implemented in your practice to improve patient care.

Education Sponsor/Provider (FHCC & PSONS)

Provider approved by the California Board of Nursing (CE Provider Number 16496) for 1.5 hrs (pending)
